

*You need:*

Mixed greenery: especially nice are arborvitae, holly, sage, variegated ivy, Hinoki false-cypress, and boxwood.

A block of floral oasis

Floral tape to hold the oasis to the dish

A shallow dish or other container: consider a fancy urn or silver vase for a dressy holder, or a rustic wooden crate lined with plastic!

Decorations of your choice Note: the textures and colors of foliage of this tree are so interesting and rich that not much decoration is needed... you might decide to top it off with a bow and call it finished.
