

## **Custom Containers From Hyannis Country Garden**

Thank you for your interest in our custom container service. We are pleased to provide you with window boxes, pots, barrels, and other containers planted to your specifications.

We're happy to help you choose appropriate annuals, perennials, shrubs, tropicals, or even small trees for your containers. These plants will be put in an appropriate container with the correct soil for you are growing.

For our custom container service we charge the cost of the pot (if not provided), plants, soil, fertilizer and a labor/design charge of \$25.00 per hour. If you need more information about any aspect of our service please call Bridgette or Marsha at the store. 508-775-8703

Once your containers are planted you will be called. We are happy to hold and maintain these containers for up to two weeks after that call. If containers are left at CG longer than two weeks after they are planted, a \$25.00 service and labor fee will be added to the original cost of potting.

Should you want to have your containers delivered, just ask! If have any questions about how to maintain your pots or boxes after they are planted, be sure to consult us.
